## Gay Marriage: Court's Decision

### Likely Voters

The language in Proposition 8 defining marriage as the union of a man and a woman was approved by more than 61% of California voters in 2000. Earlier this year, four judges in San Francisco overturned this vote and declared that gay people have a constitutional right to be married. Do you think the judges were correct in their decision, or not?

## Gender Neutral Marriage Licenses

### Likely Voters

In order to accommodate same sex marriages the State of California now requires gender neutral marriage certificates. The use of bride and groom on marriage certificates is illegal and non-binding and has been replaced by the words Party A and Party B. Do you think this gender neutral wording should be required or not required on every couple's marriage certificate?

## Same-Sex Marriage vs. Risk to Clergy

### Likely Voters

Please listen to the following views about same sex marriage: Same sex marriage should NOT be law if priests, ministers, and other clergy who believe the Bible allows for marriage only between a man and a woman will not be able to legally marry these couples in their place of worship without risk of lawsuits or loss of their tax-exempt status. Same sex marriage SHOULD become law, so gay and lesbian couples may have the same rights as other couples through marriage. Do you believe same sex marriage should not be law or should be law?
